**2. Hazards Identification.**

This product is not dangerous under 67/548/EEC and 1999/45/EC directives and subsequent amendments.

**3. Composition / Information on Ingredients.**

The product is not classified as hazardous pursuant to directives 67/548/EEC and 1999/45/EC and subsequent amendments and upgrades and does not contain substances classified as being hazardous to human health or the environment pursuant to 67/548/EEC and subsequent amendments.

**4. First aid measures.**

No episodes of damage to health ascribable to the product have been reported. Nevertheless, observance of good industrial hygiene is recommended.

**5. Fire-fighting measures.**

**GENERAL INFORMATION**  
Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

**SUITABLE EXTINGUISHING MEDIA**  
The extinction equipment should be of the conventional kind: carbon dioxide, foam, powder and nebulised water.

**EXTINGUISHING MEDIA WHICH SHALL NOT BE USED FOR SAFETY REASONS**  
None in particular.

**HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE**  
Do not breathe combustion products (carbon oxide, toxic pyrolysis products, etc).

**SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS**  
Hardhat with visor, fireproof clothing (fireproof jacket and trousers with straps around arms, legs and waist), work gloves (fireproof, cut proof and dielectric), a depressurised mask with facemask covering the whole of the operator's face or a self-respirator (self-protector) in the event of large quantities of fume.

| <b>10. Stability and reactivity.</b><br><br>The product is stable in normal conditions of use and storage. In the event of thermal decomposition or fire, vapours potentially dangerous to health may be released.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |                                      |                                                                              |        |             |  |       |             |  |            |       |  |            |                                     |  |           |                |  |                |                |  |                  |                |  |                     |                |  |                                        |                |  |     |                |  |                |                |  |              |   |        |                       |                |  |                  |                |  |                   |          |  |                |         |  |                              |               |                         |                         |               |                         |
| <b>11. Toxicological information.</b><br><br>According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This product may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                      |                                                                              |        |             |  |       |             |  |            |       |  |            |                                     |  |           |                |  |                |                |  |                  |                |  |                     |                |  |                                        |                |  |     |                |  |                |                |  |              |   |        |                       |                |  |                  |                |  |                   |          |  |                |         |  |                              |               |                         |                         |               |                         |
