Material Safety Data Sheet

DAS Air Hardening Clay

1. Chemical product and Company Identification

| | | | |
|--------------------------------|--------------------------------------------------------------------------------------------------------------|------------------------|---------------------|
| Company Identification: | Dixon Ticonderoga Company 195 International Parkway Heathrow, FL 32746-5036 Telephone: 800-824-9430 | Date prepared: | 26-Nov-06 |
| Product Name: | DAS Air Hardening Clay | Last revised: | 20-Nov-09 |
| Product Code(s): | 00380, 00381, 00384, 00385, 387000, 387100, 387500, 387600 | Emergency call: | 800-824-9430 |

2. Composition/Information On Ingredients

Water, inorganic fillers, vegetable bindings

3. Hazards Identification

None

4. First Aid Measures

No harm to the staff authorised to use has been reported. However, in case of contact, inhalation or ingestion, the following general measures provided for a first aid shall be taken.

INHALATION: Implausible

INGESTION: Seek medical attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person.

EYES and SKIN: Wash with plenty of water; if the irritation persists, seek medical advice.

5. Fire Fighting Measures

Allow containers to cool in order to avoid product decomposition and generation of substances which might injure the health and be dangerous for safety reasons. Wear the fire equipment all the time.

6. Accidental Release Measures

Limit leakage with earth or inert material. Remove most of the product and then rinse the involved area by jets of water.

7. Handling and Storage

Make sure that equipment is available for cooling the vessels, to prevent the danger of overpressure and overheating in the event of fire in the vicinity. Refer to the other sections of this data sheet for information relating to health and environmental risks.

8. Exposure Controls/Personal Protection

In order to minimise exposure as far as possible, it is strongly recommended to use adequate individual protective measures such as: masks suitable for the product, goggles, gloves and overalls. Do not eat, drink or smoke while handling it. Accurately wash the hands with soap and water before meals and at the end of the work shift.

9. Physical and Chemical Properties

Color: White and Terracotta
Odor: Typical
Physical State: Solid

Page 2/2

| | |
|-------------------------------|--------------------------------|
| Solubility: | Partially dissoluable in water |
| Viscosity: | N/A |
| Vapor Denisty: | N/A |
| Evaporation Speed | N/A |
| Comburent Properties | N/A |
| Partition coefficient: | |
| n-octanol/water | N/A |
| pH: | 7-8 |
| Boiling Point: | N/A |
| Flash point: | >100 °C |
| Explosive properties: | N/A |
| Vapor pressure | N/A |
| Specific gravity: | 1,700Kg/l |

10. Stability and Reactivity

The product is stable in normal conditions of use and storage. In the event of thermal decomposition or fire, vapors potentially dangerous to health may be released.

11. Toxicological Information

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled carefully according to good industrial practices. This preparate may have slight health effects on sensitive people, by inhalation and/or cutaneous absorption and/or contact with eyes and/or ingestion.

12. Ecological Information

Use this product according to good working practices. Avoid litter. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

13. Disposal Considerations

If the product is a solid it can be disposed off in a sewer whose typology must be identified according to the criteria.

14. Transportation Information

This substance is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.

15. Regulatory Information

Safety data sheet available upon request for professional users.

Danger labelling under regulations 67/548/CEE and 1999/45/CE and following amendments and adjustments.

Workers exposed to this chemical agent must not undergo health checks, provided that available risk-assessment data prove that the risks related to the workers' health and safety are modest and that the 98/24/CE regulation is respected.

16. Other Information

**For further product safety information call
