## SAFETY DATA SHEET LQ TEX GEL WHITE OPQ FLK

According to Appendix D, OSHA Hazard Communication Standard 29 CFR §1910.1200

1. Identification		
Product identifier		
Product name	LQ TEX GEL WHITE OPQ FLK	
Product number	D011886	
Recommended use of the ch	emical and restrictions on use	
Application	Medium for Acrylic Painting	
Uses advised against	No specific uses advised against are identified.	
Details of the supplier of the	safety data sheet	
Supplier	ColArt Americas Inc. 11 Constitution Avenue Piscataway New Jersey 08855 - 1396 USA 1-732-562-0770 R.Enquiries@colart.co.uk	
Contact Person	Regulatory Manager	
Manufacturer	ColArt International SA 5 Rue Rene Panhard Z.I .Nord 72021 Le Mans Cedex 2 +33 2 43 83 83 00	
Emergency telephone number		
Emergency telephone	For health information only call 1-800-628-3385 Piscataway NJ 08855.	
2. Hazard(s) identification		
Classification of the substance or mixture		
Physical hazards	Not Classified	
Health hazards	Not Classified	
Environmental hazards	al hazards Not Classified	
Label elements Hazard statements	NC Not Classified	
Other hazards		
This product does not contain any substances classified as PBT or vPvB.		
2. Composition information on instantiation		

3. Composition/information on ingredients

## Mixtures

Polyethylene glycol octylphenyl ether	1-5%
CAS number: 9036-19-5	
Classification	
Aquatic Chronic 3 - H412	
2-AMINO-2-METHYLPROPANOL	1-5%
CAS number: 124-68-5	
Classification	
Skin Irrit. 2 - H315	
Eye Irrit. 2 - H319	
Aquatic Chronic 3 - H412	
The Full Text for all Hazard Statements are Displayed in Section 16.	
Composition comments -	
4. First-aid measures	

Description of first aid measures		
General information	If in doubt, get medical attention promptly. Show this Safety Data Sheet to the medical personnel.	
Inhalation	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing. Loosen tight clothing such as collar, tie or belt. Get medical attention if any discomfort continues.	
Ingestion	No specific recommendations. If throat irritation or coughing persists, proceed as follows. Rinse mouth. Get medical attention if any discomfort continues.	
Skin Contact	No specific recommendations. Rinse with water. Get medical attention if any discomfort continues.	
Eye contact	Rinse with water. Get medical attention if any discomfort continues.	
Protection of first aiders	Use protective equipment appropriate for surrounding materials.	
Most important symptoms and effects, both acute and delayed		
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known. Spray/mists may cause respiratory tract irritation.	
Ingestion	No specific symptoms known. May cause discomfort if swallowed.	
Skin contact	No specific symptoms known. May cause discomfort.	
Eye contact	No specific symptoms known. May be slightly irritating to eyes.	
Indication of immediate med	dical attention and special treatment needed	
Notes for the doctor	Treat symptomatically.	
Specific treatments	No special treatment required.	
5.Fire-fighting measures		

Item Numbers: 00618-1095

exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, us water spray to disperse vapors and protect men stopping the leak.Special protective equipment for firefightersWear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective boots and gloves) will provide a basic level of protection for chemical incidents.6. Accidental release measuresPersonal precautions, protective equipment and emergency proceduresPersonal precautionsNo specific recommendations. For personal protection, see Section 8.Environmental precautionsAvoid discharge into drains or watercourses or onto the ground.Methods and material for containment and cleaning upReuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.7. Handling and storageRead and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in use. Avoid the formation of mists.Advice on general cocuptional hygieneWash promptiby if skin becomes contaminated. Take off contaminated clothing and wash before reuse. Wash contaminated clothing before reuse.Conditions for safe storage, including any incompatibilities			
media         Special hazards arising from the substance or mixture         Special hazards       Containers can burst violently or explode when heated, due to excessive pressure build-up.         Hazardous combustion products       Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.         Advice for firefighters       Avoid breathing fire gases or vapors. Evacute area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool container exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, us water spray to disperse vapors and protect men stopping the leak.         Special protective equipment       Wear spray and remove them from the fire area if it can be done without risk. Cool container exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, us water spray and remove them from the gaparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.         6. Accidental release measures       Personal precautions       No specific recommendations. For personal protection, see Section 8.         Environmental precautions       Avoid discharge into drains or watercourses or onto the ground.       Methods and material for containert and eleaning up Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.         Reference to other section	Suitable extinguishing media		
Specific hazards       Containers can burst violently or explode when heated, due to excessive pressure build-up.         Hazardous combustion products       Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.         Advice for firefighters       Protective actions during firefighting       Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool container exposed to finames with water until well after the fire is out. If a leak or split has not ignited, us water spray to disperse vapors and protect men stopping the leak.         Special protective equipment for firefighters       Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.         B. Accidental release measures       Personal precautions       No specific recommendations. For personal protection, see Section 8.         Environmental precautions       Avoid discharge into drains or watercourses or onto the ground.         Methods for cleaning up       Reuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with pienty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.         7. Handling and storage       Precautions for safe handling         Usage precautions       Read and follow manufacturer's re		Do not use water jet as an extinguisher, as this will spread the fire.	
Hazardous combustion products       Thermal decomposition or combustion products may include the following substances: Harmful gases or vapors.         Advice for firefighters       Protective actions during firefighting       Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool containers exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, us water spray to disperse vapors and protect men stopping the leak.         Special protective equipment for firefighters       Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protectiv clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.         6. Accidental release measures       Personal precautions       No specific recommendations. For personal protection, see Section 8.         Environmental precautions       Avoid discharge into drains or watercourses or onto the ground.         Methods for cleaning up       Reuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.         7. Handling and storage       Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. Keep away from food, drink and animal feeding stuffs. Handle all packages and containers carefully to minimize spills. Keep container tightly sealed when not in u	Special hazards arising from the substance or mixture		
products       Harmful gases or vapors.         Advice for firefighters       Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with firefighting         Protective actions during firefighters       Avoid breathing fire gases or vapors. Evacuate area. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Cool container exposed to flames with water until well after the fire is out. If a leak or spill has not ignited, us water spray to disperse vapors and protect men stopping the leak.         Special protective equipment for firefighters       Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective for firefighters clothing, Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents.         B. Accidental release measures       Personal precautions, protective equipment and emergency procedures         Personal precautions       No specific recommendations. For personal protection, see Section 8.         Environmental precautions       Avoid discharge into drains or watercourses or onto the ground.         Methods for cleaning up       Reuse or recycle products wherever possible. Absorb spillage to prevent material damage. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. Dispose of contents/container in accordance with national regulations.         Precautions for safe handling       Read and follow manufacturer's recommendations. Wear protective clothing as described in Section 8 of this safety data sheet. #### Ingredient comments OES = Occupational Exposure Standard. MEL = Maximum Exposure Limit. Exposure controls Appropriate engineering No specific ventilation requirements. controls Eye/face protection No specific eye protection required during normal use. Large Spillages: Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Hand protection No specific hand protection recommended. Other skin and body No specific recommendations protection Hygiene measures Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Wash contaminated clothing before reuse. No specific recommendations. Provide adequate ventilation. Large Spillages: If ventilation is **Respiratory protection** inadequate, suitable respiratory protection must be worn. Environmental exposure Not regarded as dangerous for the environment. controls 9. Physical and Chemical Properties Information on basic physical and chemical properties Appearance Granules. Paste Color White / off-white. Odor Ammonia. pН pH (concentrated solution): 9-10 Initial boiling point and range >100°C @ 760 mm Hg Vapour density >1 1.1 @ 20. C°C **Relative density** Solubility(ies) Miscible with water 10. Stability and reactivity Reactivity There are no known reactivity hazards associated with this product. Stability Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. Possibility of hazardous No potentially hazardous reactions known. reactions Conditions to avoid There are no known conditions that are likely to result in a hazardous situation. Materials to avoid No specific material or group of materials is likely to react with the product to produce a hazardous situation. Hazardous decomposition Does not decompose when used and stored as recommended. Thermal decomposition or products combustion products may include the following substances: Harmful gases or vapors.

11. Toxicological information		
Information on toxicological effects		
Toxicological effects	Not regarded as a health hazard under current legislation.	
<u>Acute toxicity - oral</u> Notes (oral LD∞)	Based on available data the classification criteria are not met.	
Acute toxicity - dermal Notes (dermal LD∞)	Based on available data the classification criteria are not met.	
Acute toxicity - inhalation Notes (inhalation LC <sub>50</sub> )	Based on available data the classification criteria are not met.	
Skin corrosion/irritation Animal data	Based on available data the classification criteria are not met.	
Serious eye damage/irritation Serious eye damage/irritation	Based on available data the classification criteria are not met.	
Respiratory sensitisation Respiratory sensitisation	Based on available data the classification criteria are not met.	
Skin sensitisation Skin sensitisation	Based on available data the classification criteria are not met.	
Germ cell mutagenicity Genotoxicity - in vitro	Based on available data the classification criteria are not met.	
Carcinogenicity Carcinogenicity	Based on available data the classification criteria are not met.	
IARC carcinogenicity	None of the ingredients are listed or exempt.	
Reproductive toxicity Reproductive toxicity - fertility	Based on available data the classification criteria are not met.	
Reproductive toxicity - development	Based on available data the classification criteria are not met.	
Specific target organ toxicity -		
STOT - single exposure	Not classified as a specific target organ toxicant after a single exposure.	
Specific target organ toxicity - repeated exposure STOT - repeated exposure Not classified as a specific target organ toxicant after repeated exposure.		
STOT - repeated exposure <u>Aspiration hazard</u> Aspiration hazard	Based on available data the classification criteria are not met.	
General information	No specific health hazards known. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.	
Inhalation	No specific symptoms known. Spray/mists may cause respiratory tract irritation.	
Ingestion	No specific symptoms known. May cause discomfort if swallowed.	
Skin Contact	No specific symptoms known. May cause discomfort.	
Eye contact	No specific symptoms known. May be slightly irritating to eyes.	

Item Numbers: 00618-1095

Page 5 of 8

Acute and chronic health hazards	No specific health hazards known.
Route of entry	Ingestion Inhalation Skin and/or eye contact
Target Organs	No specific target organs known.
Medical Symptoms	Irritation of eyes and mucous membranes.
12. Ecological Information	
Ecotoxicity	Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.
Toxicity	
Toxicity	Based on available data the classification criteria are not met.
Persistance and degradability	
Persistence and degradability	The degradability of the product is not known.
Bioaccumulative potential	
Bio-Accumulative Potential	No data available on bioaccumulation.
Mobility in soil	
Mobility	No data available.
Other adverse effects	
Other adverse effects	None known.
