3. Composition/information on ingredients

Mixtures

PIÑATA CLARO EXTENDER

SDS US Page 1 / 10

Chemical name	CAS number	%			
Ethanol	64-17-5	60 - 75			
Ethylene glycol monopropyl eth	er 2807-30-9	10 - 20			
Propan-2-ol	67-63-0	1 - 5			
Propyl acetate	109-60-4	1 - 5			
4. First-aid measures					
Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.				
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/show attention if irritation develops and persists.	ver. Get medical			
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remov present and easy to do. Continue rinsing. Get medical attention if irritation				
Ingestion	Rinse mouth. Get medical attention if symptoms occur.				
Most important symptoms/effects, acute and delayed	Headache. Severe eye irritation. Symptoms may include stinging, tearing, blurred vision. Coughing.	redness, swelling, and			
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep vict Symptoms may be delayed.	im under observation.			
General information	Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.				
5. Fire-fighting measures					
Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).			
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.				
Specific hazards arising from the chemical	Vapors may form explosive mixtures with air. Vapors may travel considera of ignition and flash back. During fire, gases hazardous to health may be for				
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be wo	rn in case of fire.			
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fumes. Move containers from so without risk.	m fire area if you can d			
Specific methods	Use standard firefighting procedures and consider the hazards of other inv	olved materials.			
General fire hazards	Highly flammable liquid and vapor.				
6. Accidental release mea	sures				
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind o ignition sources (no smoking, flares, sparks, or flames in immediate area). protective equipment and clothing during clean-up. Do not touch damaged material unless wearing appropriate protective clothing. Ventilate closed sp them. Local authorities should be advised if significant spillages cannot be protection, see section 8 of the SDS.	Wear appropriate containers or spilled baces before entering			
Methods and materials for containment and cleaning up	Use water spray to reduce vapors or divert vapor cloud drift. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools.				
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.				
	Small Spills: Absorb with earth, sand or other non-combustible material and for later disposal. Clean surface thoroughly to remove residual contamination				
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see Avoid discharge into drains, water courses or onto the ground.	e section 13 of the SDS

ndividual protection measures, such as personal protective equipmentEye/face protectionWear safety glasses with side shields (or goggles).				
Skin protection Hand protection	Wear appropriate chemical resistant gloves.			
Skin protection				
Other	Wear suitable protective clothing.			
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.			
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.			
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.			

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Colorless to pale yellow.
Odor	Alcoholic.
рН	Neutral
Melting point/freezing point	Not determined.
Initial boiling point and boiling range	> 95 °F (> 35 °C)
Flash point	57.2 °F (14.0 °C)
Evaporation rate	No data available
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	plosive limits
Flammability limit - lower (%)	3.3 (Ethanol)
Flammability limit - upper (%)	19 (Ethanol)
Vapor pressure	57.3 hPa (19.6°C) (Ethanol)
Vapor density	Not determined.
Relative density	Not determined.
Solubility(ies)	
Solubility (water)	Not miscible or difficult to mix.
Partition coefficient (n-octanol/water)	Not applicable, product is a mixture.
Auto-ignition temperature	685.4 °F (363 °C) (Ethanol)
Decomposition temperature	Not determined.
Other information	
Kinematic viscosity	Not determined.
Particle size	Not applicable, material is a liquid.
10. Stability and reactivit	у
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Nitrates.

potential. 13. Disposal considerations **Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the material under controlled conditions in an approved incinerator. Do not incinerate sealed containers. If discarded, this product is considered a RCRA ignitable waste, D001. Dispose of contents/container in accordance with local/regional/national/international regulations. Local disposal regulations Dispose in accordance with all applicable regulations. D001: Waste Flammable material with a flash point <140 F Hazardous waste code The waste code should be assigned in discussion between the user, the producer and the waste disposal company. Waste from residues / unused Dispose in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal products instructions). Since emptied containers may retain product residue, follow label warnings even after container is Contaminated packaging emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
