21137-XXXX

# **Higgins Dye Inks**

# SAFETY DATA SHEET (SDS)

Version: 01

Date of Issue: December 2, 2019

**According to:** US Hazard Communication Standard (HCS 2012), WHMIS 2015 (Hazardous Products

Regulations)

# Section 1 - Identification

1.1 Product identifier

Product Name: Higgins Dye Inks

Product Description: Liquid ink intended for general arts and crafts purposes. The product is intended to be

applied using a brush, dip pen, or airbrush.

1.2 Relevant identified uses of the substance

Relevant identified use(s): Use for general arts and crafts purposes

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: Chartpak, Inc.

1 River Road Leeds, MA, 01053 United States

Business Phone: 800-628-1910

1.4 Emergency telephone number

Emergency Telephone: 800-222-1222

# Section 2 – Hazard(s) Identification

#### 2.1. Classification of the substance or mixture

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Health	Environmental	Physical
Not classified	Not classified	Not classified

# 2.2. Label elements

**Label Pictogram:** Not applicable **Signal Word:** Not applicable

### 2.3. Other hazards

 This product is not considered a hazardous mixture under the U.S. Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200) or WHMIS 2015 (Hazardous Products Regulations).

Page 1 of 9

# Section 3 – Composition / Information on Ingredients

# **Hazardous Components**

Chemical Name	CAS No.	EINECS No.	% Weight
Hydrolyzed wheat protein	N/A	N/A	0% - 2.61%
Carbon black	1333-86-4	215-609-9	0% - 7.483%
Ammonia	7664-41-7/1336-21-6	231-635-3	0% - 1.69%
Sodium borate	1303-96-4	603-411-9	0% - 0.216%
Titanium dioxide	13463-67-7	236-675-5	0% - 7.958%

The exact percentage (concentration) of composition of the product has been withheld as trade secrets

# Section 4 – First-Aid Measures

#### 4.1 Description of first aid measures

**Eye contact:** No specific first aid measures are required. As a precaution, remove contact lenses, if worn, and flush eyes with water. Seek medical attention if in doubt.

Skin contact: No specific first aid measures are required. Seek medical attention if in doubt.

**Inhalation:** No specific first aid measures are required. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Seek medical attention if in doubt.

**Ingestion:** No specific first aid measures are required. Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if in doubt.

# 4.2 Most important symptoms and effects, both acute and delayed

• Refer to **Section 11** - Toxicological Information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

· Not required

# Section 5 – Fire-Fighting Measures

#### 5.1 Extinguishing media

Suitable Extinguishing Media: Use extinguishing media suitable for surrounding area if material is involved in a fire (e.g., water fog, foam, dry chemical or carbon dioxide)

Unsuitable Extinguishing Media: None known

#### 5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards: None known. See also Section 10 - Stability and Reactivity.

# 5.3 Advice for firefighters

Not available

Page 2 of 9

# Section 6 - Accidental Release Measures

# 6.1 Personal precautions, protective equipment (PPE) and emergency procedures

Personal Precautions: Observe PPE advice in Section 8 – Exposure Controls/Personal Protection.

Emergency Procedures: Wear suitable protective clothing and gloves.

#### 6.2 Environmental precautions:

 Prevent entry and contact with soil, drains, sewers, and waterways. Inform relevant local/regional/national/international authorities.

#### 6.3 Methods and material for containment and cleaning up

**Containment/Clean-up Measures:** Contain spill if safe to do so. Collect recoverable product and place in a designated container for disposal. Dispose of contents/container in accordance with local/regional/national/international regulations.

# 6.4 Reference to other sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

# Section 7- Handling and Storage

# 7.1 Precautions for safe handling

• Eating, drinking and smoking in work areas is prohibited. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas. Use normal measures for prevention of fire. Refer to **Section 8** - Exposure Controls/Personal Protection

#### 7.2 Conditions for safe storage, including any incompatibilities storage

Store in a closed suitable container in a cool, dry, well-ventilated area.

# 7.3 Specific end use(s)

· Refer to Section 1.2 - Relevant identified uses.

# Section 8– Exposure Controls / Personal Protection

# 8.1 Control Parameters:

Chemical Name	CAS No.	% Weight	Agency	Exposure Limit and Type	
Carbon black		up to	ACGIH	3 mg/m3 TWA (inhalable fraction)	
(as particulates)	1333-86-4	7.483126%	US OSHA	3.5 mg/m3 TWA	
(as particulates)		7.40312070	US NIOSH	3.5 mg/m3 TWA	
			ACGIH	17 mg/m3 TWA	
				24 mg/m3 STEL	
Ammonia	7664-41-7	1.05%	US OSHA	35 mg/m3 TWA	
			US NIOSH	18 mg/m3 TWA	
				03 1110311	27 mg/m3 STEL
				2 mg/m3 TWA (inhalable fraction)	
Sodium borate	1303-96-4	0.2158065%	ACGIH	6 mg/m3 STEL (inhalable	
Social in borate	1303-90-4	0.213000370		fraction)	
			US NIOSH	18 mg/m3 TWA	
Titanium dioxide (as	13463-67-7	up to 7.9576%	ACGIH	10 mg/m3 TWA	
particulates)	10400-07-7	up to 7.957070	US NIOSH	15 mg/m3 TWA (total dust)	

Page 3 of 9

#### 8.2 Exposure Controls:

#### Appropriate engineering controls

 Use ventilation or other engineering controls to maintain airborne concentrations below occupational exposure limits.

#### 8.3 Personal Protective Equipment

Note: Consider the concentration and amount of product at the workplace when selecting PPE.

Respiratory: Avoid conditions that would create fine mists. If necessary, refer to appropriate regulatory standards.

**Eyes/Face:** No special eye protection is generally required. Wear safety glasses with side shields, chemical goggles, or complete facial protection if operating conditions create mists that are not adequately controlled. If necessary, refer to appropriate regulatory standards.

**Hands/Skin:** No special hand or skin protection is generally required. Consider the concentration and amount of material at the specific workplace. Wear protective clothing if engineering controls or work practices are not adequate to prevent significant skin contact. Protective measures may include general protective gloves (e.g., light weight rubber gloves). If necessary, refer to appropriate regulatory standards.

Body: No specific clothing is required. If necessary, refer to appropriate regulatory standards.

Thermal Hazards: None known

Environmental Exposure Controls: Not available

# Section 9 – Physical and Chemical Properties

# 9.1 Information on basic physical and chemical properties

Note: The data below are typical values and do not constitute a specification.

Appearance: Physical state: Color: Odor/Odor threshold:	colored liquid Liquid Various Not available	Partition Coefficient n-octanol/water: Auto-ignition temperature:	Not available Not applicable
pH (as supplied):	6.7	Decomposition temperature:	Not available
Melting/freezing point:	Not available	Viscosity:	Not applicable
Boiling point/range:	Not available	Molecular weight:	Not available
Flash point:	Not applicable	Taste:	Not available
Evaporation rate:	Not available	Explosive properties:	Not available
Flammability:	Not applicable	Oxidizing properties:	Not available
Upper/lower explosive limits:	Not applicable	Surface tension:	Not applicable
Vapor pressure:	Not available	Volatile component:	Not applicable
Water solubility:	Insoluble	Gas group:	Not applicable
Vapor density (Air = 1):	Not available	pH (as solution):	Not applicable
Specific gravity (Water = 1):	Not available	VOC:	Not applicable
Relative density:	Not available	Particle size range:	Not available

#### 9.2 Other information

No further data available

Page 4 of 9

# Section 10 - Stability and Reactivity

#### 10.1 Reactivity

This material is considered stable under normal handling and storage conditions.

#### 10.2 Chemical stability

This material is considered stable under normal handling and storage conditions.

#### 10.3 Possibility of hazardous reactions

Hazardous polymerization will not occur

# 10.4 Conditions to avoid

· Heat, flames, sparks, ignition sources

#### 10.5 Incompatible materials

Strong oxidizing agents

#### 10.6 Hazardous decomposition products

None known

# Section 11 – Toxicological Information

Likely routes of exposure: Skin contact, inhalation of droplets

Potential signs and symptoms of:

Acute oral toxicity: Practically non-toxic based on oral ATE >5000 mg/kg calculated for product

Acute dermal toxicity: Practically non-toxic based on animal studies and available data

Acute inhalation toxicity: Insufficient and/or no data identified for the components in this product

Skin corrosion/irritation: Ammonia (CAS No. 7664-41-7/1336-21-6) is classified for skin irritation

(Category 2). The other components in this product are not irritating to the skin

based on animal studies and available data

**Serious eye damage/irritation:** Ammonia (CAS No. 7664-41-7/1336-21-6) may cause irritation or burns to the

eye if in direct contact. Insufficient and/or no data identified for the other

components in this product

Respiratory or skin sensitization: The components in this product are not sensitizing to the skin based on human

and/or animal studies.

Mutagenicity: No components are classified with respect to mutagenicity by the IARC, NTP,

and ACGIH.

Carbon black (CAS No. 1333-86-4) and titanium dioxide (CAS No. 13463-67-7)

particulates are classified as possibly carcinogenic to humans (Category 2); No other components are classified with respect to carcinogenicity by the IARC,

NTP, and ACGIH.

**Reproductive Toxicity:** Sodium borate (CAS No. 1303-96-4) is classified as a possible reproductive

toxicant to humans (Category 1B) According to GHS products with less than

4.5% do not pose a reproductive toxicity concern.

Specific target organ toxicity

(single exposure):

Ammonia (CAS No. 7664-41-7/1336-21-6) may cause irritation to the nose, throat and respiratory tract. Symptoms may include coughing, choking and wheezing. The other components in this product are not specific target organ toxicants (single exposure) based on the available information, human and/or animal

Page 5 of 9

studies.

Specific target organ toxicity (repeated exposure):

Repeated or prolonged inhalation of carbon black (CAS No. 1333-86-4) or titanium dioxide (CAS No. 13463-67-7) particulates may damage or impair the respiratory and pulmonary systems; however, inhalation of carbon black or titanium dioxide as particulates is not anticipated given the physical form of the product. Insufficient and/or no data identified for the other components in this product.

Aspiration hazard: The

The components in this product are not aspiration hazards based on the available

information, human and/or animal studies.

# Section 12 – Ecological Information

#### 12.1 Toxicity

 This product is not expected to be harmful or toxic to aquatic life. See ecotoxicity data for the hazardous components below.

Chemical Name	CAS No.	Species	Test Results (mg/L)
Carbon Black 1333-86-4	Fish [Danio rerio]	96-hour LC50 = 10,000	
	1333-86-4	Daphnia magna	24-hour LC50 = 5,600
	Algae	72-hour EC50 = 10,000	
Ammonia 7664-41-7/1336-21-6	Fish [Rainbow trout]	96-hour LC50 = 0.163 – 1.09	
	Daphnia magna	48-hour LC50 = 101	
Titanium 13463-67-7	Fish [Pimephales promelas]	96-hour LC50 = >1000	
	Algae [Pseudokirchneriella subcapitata]	72-hour EC50 = 100	
	Daphnia magna	48-hour LC50 = >1000	

# 12.2 Persistence and degradability

No data available

#### 12.3 Bioaccumulative potential

· No data available

# 12.4 Mobility in Soil

No data available

# 12.5 Results of PBT and vPvB assessment

 Sodium borate (CAS 1303-96-4) is partially soluble in water and may spread in the aquatic environment. No data available for the hazardous components.

### 12.6 Other adverse effects

· No further data available

# Section 13 – Disposal Considerations

#### 13.1 Waste treatment methods

**Preparing wastes for disposal:** Use product for its intended purpose or recycle if possible. Do not allow this material to drain into sewers/water supplies. Dispose of waste in accordance with local, regional, national, and/or international regulations.

# Section 14 – Transport Information

Note: This product is not regulated as dangerous goods for transport.

	ADR/RID/ADNR/DOT	IMO/IMDG	ICAO/IATA
14.1 UN number	Not classified	Not classified	Not classified
14.2 UN proper shipping name	Not classified	Not classified	Not classified
14.3 Transport hazard class(es):	Not classified	Not classified	Not classified
14.4 Packing group	Not classified	Not classified	Not classified
14.5 Environmental hazards	None	None	None
14.6 Special precautions for user	None	None	None
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable	Not applicable	Not applicable

# Section 15 – Regulatory Information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### **United States**

#### Federal Regulations:

Comprehensive Environmental Response and Liability Act of 1980 (CERCLA):

No components in this product are listed under CERCLA.

Clean Water Act (CWA): No components in this product are listed as toxic pollutants.

Clean Air Act (CAA): No components in this product are listed under the CAA.

Superfund Amendments and Reauthorization Act (SARA) Title III Information:

SARA 302 Components: No components in this product are subject to reporting requirements of S.302.

SARA 311/312 Hazards: No components in this product are SARA Hazards

**SARA 313 Components:** Ammonia (CAS No. 7664-41-7 / 1336-21-6) is listed as subject to S.313. No other components in this product are subject to S.313.

Toxic Substances Control Act (TSCA):

All components in this product are listed on the non-confidential TSCA inventory.

#### State Regulations:

**California:** Carbon black (airborne, unbound particles of respirable size) (CAS No. 1333-86-4) and titanium dioxide (airborne, unbound particles of respirable size) are listed under Proposition 65 (CA Health & Safety Code Section 25249.5). No other components in this product are listed.

#### Canada

**CEPA DSL/NDSL:** The components of this product are included on the DSL or are exempt from DSL/NDSL requirements

# International:

**IARC:** Carbon black (CAS No. 1333-86-4) particulate is classified as possibly carcinogenic to humans (Category 2B). Titanium dioxide (CAS No. 13463-67-7) is classified as possibly carcinogenic to humans (Category 2B). No other components in this product are classified with respect to carcinogenicity.
