Proprietary mixture of synthetic and natural waxes.

No components need to be disclosed according to the applicable regulations.

**Section 4 First Aid Measures**

**4.1 Description of first aid measures**

- Inhalation** Get medical assistance if irritation develops or persists. If breathing is difficult, move the person to fresh air. Give artificial respiration if person is not breathing.
- Skin contact** For thermal burns, flush or submerge affected area in cold water to dissipate heat. Cover with clean bandage material. Do not peel material from skin. Get medical attention.
- Eye contact** For contact at ambient temperatures, wash with soap and water. Immediately flush with plenty of water for at least 15 minutes. If irritation persists, get medical attention immediately.
- Ingestion** If swallowed, rinse mouth with water. Never give anything by mouth to an unconscious person. Do NOT induce vomiting. Consult a physician if necessary.

**Section 5 Fire Fighting Measures**

**5.1 Extinguishing media****Suitable extinguishing media:** Water fog, dry chemical, foam, carbon dioxide.**Unsuitable extinguishing media:** Do not use a solid water stream as it may scatter and spread fire.**5.2 Special hazards arising from the substance or mixture****Unusual Fire and Explosion Hazards:** Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.**Hazardous Combustion Products:** Carbon dioxide, carbon monoxide, irritating smoke.**5.3 Advice for firefighters**

Wear self-contained breathing apparatus for firefighting if necessary.

**Safety Data Sheet**  
**Freeman 219MA Wax**

**Section 6 Accidental Release Measures**

**6.1 Personal precautions, protective equipment and emergency procedures**

Wear appropriate personal protective equipment, see Section 8. Ensure adequate ventilation.

**6.2 Environmental precautions**

Should not be released into the environment. Prevent product from entering drains.

**6.3 Methods and materials for containment and cleaning up**

Allow molten material to solidify. Contain spillage and use clean non-sparking tools to collect material. Shovel spillage into suitable container for disposal.

**Section 7 Handling and Storage**

**7.1 Precautions for safe handling**

Wear appropriate personal protective equipment. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco. Do not use in areas without adequate ventilation. Avoid dust formation. Avoid contact with molten material.

**7.2 Conditions for safe storage, including any incompatibilities**

Store at ambient temperatures. Keep away from ignition sources, heat, open flames, and direct sunlight. Do not store with incompatible materials, see Section 10.

**Section 8 Exposure Controls/Personal Protection**

**8.1 Control parameters**

Substance Name	Exposure Limit	Standard
Wax fumes	2 mg/m <sup>3</sup> (8 hr. TWA)	ACGIH

**8.2 Exposure controls**

**Appropriate engineering controls**

Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. Supplementary local exhaust ventilation, closed systems, or respiratory and eye protection may be needed in special circumstances, such as poorly ventilated spaces, very hot processing, mechanical generation of dusts, etc.

**8.3 Personal protective equipment**

**Eye/Face**

Wear safety glasses equipped with side shields, or safety goggles.

**Hands**

Wear thermally resistant gloves and long sleeves if handling molten product.

**Skin/Body**

Prevent skin contact, wear long sleeves and/or coveralls.

**Respiratory**

The need for respiratory protection is not anticipated under normal use conditions and with adequate ventilation. If elevated airborne concentrations above applicable workplace exposure levels are anticipated, use an N95 dust mask for limited exposure. For prolonged exposure use an air-purifying respirator. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

**Safety Stations**

Make emergency eyewash stations and washing facilities available in work area.

**General Hygienic Practices**

Avoid contamination of food, beverages, or smoking materials. Wash thoroughly after handling, and before eating, drinking or smoking. Remove contaminated clothing promptly and clean thoroughly before reuse.
