**Information Sheet****SECTION 1. Identification of the substance/mixture and of the company/undertaking.****1.1. Product identifier.**Code: **20391**  
Product name: **MAIMERI GOUACHE 20391 Ultramarine Light****1.2. Relevant identified uses of the substance or mixture and uses advised against.**Intended use: **Guache colour.****1.3. Details of the supplier of the safety data sheet.**Name: **INDUSTRIA MAIMERI S.P.A.**  
Full address: **Via Gianni Maimeri, 1**  
District and Country: **20060 Mediglia (MI)**  
**Italia**  
Tel. **+39 02 906981**  
Fax. **+39 02 90698999**e-mail address of the competent person.  
responsible for the Safety Data Sheet. **schedesicurezza@maimeri.it**Product distribution by: **INDUSTRIA MAIMERI S.P.A. VIA G.MAIMERI 1 20060 BETTOLINO DI MEDIGLIA (MI) ITALY****1.4. Emergency telephone number.**For urgent inquiries refer to. **Australia : 131126**  
**USA: 1 800 222 1222**  
**Regno Unito NHS Direct (UK): +44 (0) 845 46 47****SECTION 2. Hazards identification.****2.1. Classification of the substance or mixture.**

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements).

Hazard classification and indication: --

**2.2. Label elements.**

Hazard pictograms: --

Signal words: --

Hazard statements: --

Precautionary statements: --

**2.3. Other hazards.**

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

**SECTION 3. Composition/information on ingredients.****3.1. Substances.**

Information not relevant.

<b>INDUSTRIA MAIMERI S.P.A.</b>	Revision nr.2 Dated 15/02/2017 Printed on 15/02/2017 Page n. 2 / 7
<b>MAIMERI GOUACHE                      20391 Ultramarine Light</b>	EN
<b>SECTION 3. Composition/information on ingredients.    ... / &gt;&gt;</b>	
<p><b>3.2. Mixtures.</b></p> <p>The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions Regulation (EU) 1272/2008 (CLP) (and subsequent amendments and supplements) in such quantities as to require the statement.</p>	
<b>SECTION 4. First aid measures.</b>	
<p><b>4.1. Description of first aid measures.</b>  <b>EYES:</b> Remove contact lenses, if present. Wash immediately with plenty of water for at least 15 minutes, opening the eyelids fully. If problem persists, seek medical advice.  <b>SKIN:</b> Remove contaminated clothing. Wash immediately with plenty of water. If irritation persists, get medical advice/attention. Wash contaminated clothing before using it again.  <b>INHALATION:</b> Remove to open air. In the event of breathing difficulties, get medical advice/attention immediately.  <b>INGESTION:</b> Get medical advice/attention. Induce vomiting only if indicated by the doctor. Never give anything by mouth to an unconscious person, unless authorised by a doctor.</p> <p><b>4.2. Most important symptoms and effects, both acute and delayed.</b>  Specific information on symptoms and effects caused by the product are unknown.  For symptoms and effects caused by the contained substances, see chap. 11.</p> <p><b>4.3. Indication of any immediate medical attention and special treatment needed.</b>  Information not available.</p>	
<b>SECTION 5. Firefighting measures.</b>	
<p><b>5.1. Extinguishing media.</b>  <b>SUITABLE EXTINGUISHING EQUIPMENT</b>  Extinguishing substances are: carbon dioxide and chemical powder. For product loss or leakage that has not caught fire, water spray can be used to disperse flammable vapours and protect those trying to stem the leak.  <b>UNSUITABLE EXTINGUISHING EQUIPMENT</b>  Do not use jets of water.  Water is not effective for putting out fires but can be used to cool containers exposed to flames to prevent explosions.</p> <p><b>5.2. Special hazards arising from the substance or mixture.</b>  <b>HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE</b>  If large quantities of the product are involved in a fire, they can make it considerably worse. Do not breathe combustion products.</p> <p><b>5.3. Advice for firefighters.</b>  <b>GENERAL INFORMATION</b>  In the case of fire, use jets of water to cool the containers to prevent the risk of explosions (product decomposition and excess pressure) and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Remove all containers containing the product from the fire, if it is safe to do so.  <b>SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS</b>  Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).</p>	
<b>SECTION 6. Accidental release measures.</b>	
<p><b>6.1. Personal precautions, protective equipment and emergency procedures.</b>  Block the leakage if there is no hazard.  Wear suitable protective equipment (including personal protective equipment referred to under Section 8 of the safety data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both processing staff and those involved in emergency procedures.</p> <p><b>6.2. Environmental precautions.</b>  The product must not penetrate into the sewer system or come into contact with surface water or ground water.</p> <p><b>6.3. Methods and material for containment and cleaning up.</b>  Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material.  Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.</p>	

<b>INDUSTRIA MAIMERI S.P.A.</b>		Revision nr.2 Dated 15/02/2017 Printed on 15/02/2017 Page n. 3 / 7	EN
<b>MAIMERI GOUACHE</b>		<b>20391 Ultramarine Light</b>	
<b>SECTION 6. Accidental release measures. ... / &gt;&gt;</b>			
<b>6.4. Reference to other sections.</b> Any information on personal protection and disposal is given in sections 8 and 13.			
<b>SECTION 7. Handling and storage.</b>			
<b>7.1. Precautions for safe handling.</b> Keep away from heat, sparks and naked flames; do not smoke or use matches or lighters. Vapours may catch fire and an explosion may occur; vapour accumulation is therefore to be avoided by leaving windows and doors open and ensuring good cross ventilation. Without adequate ventilation, vapours may accumulate at ground level and, if ignited, catch fire even at a distance, with the danger of backfire. Avoid bunching of electrostatic charges. When performing transfer operations involving large containers, connect to an earthing system and wear antistatic footwear. Vigorous stirring and flow through the tubes and equipment may cause the formation and accumulation of electrostatic charges. In order to avoid the risk of fires and explosions, never use compressed air when handling. Open containers with caution as they may be pressurised. Do not eat, drink or smoke during use. Avoid leakage of the product into the environment.			
<b>7.2. Conditions for safe storage, including any incompatibilities.</b> Store only in the original container. Store the containers sealed, in a well ventilated place, away from direct sunlight. Store in a well ventilated place, keep far away from sources of heat, naked flames and sparks and other sources of ignition. Keep containers away from any incompatible materials, see section 10 for details.			
<b>7.3. Specific end use(s).</b> Information not available.			
<b>SECTION 8. Exposure controls/personal protection.</b>			
<b>8.1. Control parameters.</b>  Information not available.			
<b>8.2. Exposure controls.</b>  Comply with the safety measures usually applied when handling chemical substances. <b>HAND PROTECTION</b> None required. <b>SKIN PROTECTION</b> None required. <b>EYE PROTECTION</b> None required. <b>RESPIRATORY PROTECTION</b> If the threshold value (e.g. TLV-TWA) is exceeded for the substance or one of the substances present in the product, use a mask with a type B filter whose class (1, 2 or 3) must be chosen according to the limit of use concentration. (see standard EN 14387). In the presence of gases or vapours of various kinds and/or gases or vapours containing particulate (aerosol sprays, fumes, mists, etc.) combined filters are required. Respiratory protection devices must be used if the technical measures adopted are not suitable for restricting the worker's exposure to the threshold values considered. The protection provided by masks is in any case limited. If the substance considered is odourless or its olfactory threshold is higher than the corresponding TLV-TWA and in the case of an emergency, wear open-circuit compressed air breathing apparatus (in compliance with standard EN 137) or external air-intake breathing apparatus (in compliance with standard EN 138). For a correct choice of respiratory protection device, see standard EN 529. <b>ENVIRONMENTAL EXPOSURE CONTROLS.</b> The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.			
<b>SECTION 9. Physical and chemical properties.</b>			
<b>9.1. Information on basic physical and chemical properties.</b>			
Appearance			paste
Colour			blue
Odour			ARABIC GUM
Odour threshold.			Not available.
pH.			
Melting point / freezing point.			Not available.
Initial boiling point.			Not available.
Boiling range.			Not available.
Flash point.	>	60	°C.
Evaporation Rate			Not available.
Flammability of solids and gases			Not available.

<b>INDUSTRIA MAIMERI S.P.A.</b>		Revision nr.2 Dated 15/02/2017 Printed on 15/02/2017 Page n. 4 / 7	EN
<b>MAIMERI GOUACHE                      20391 Ultramarine Light</b>			
<b>SECTION 9. Physical and chemical properties.    ... / &gt;&gt;</b>			
Lower inflammability limit.	Not available.		
Upper inflammability limit.	Not available.		
Lower explosive limit.	Not available.		
Upper explosive limit.	Not available.		
Vapour pressure.	Not available.		
Vapour density	Not available.		
Relative density.	0,2		
Solubility	INSOLUBLE, DILUTE WITH WATER		
Partition coefficient: n-octanol/water	Not available.		
Auto-ignition temperature.	Not available.		
Decomposition temperature.	Not available.		
Viscosity	Not available.		
Explosive properties	Not available.		
Oxidising properties	Not available.		
<b>9.2. Other information.</b>			
Total solids {0}.	56,82 %		
<b>SECTION 10. Stability and reactivity.</b>			
<b>10.1. Reactivity.</b>			
There are no particular risks of reaction with other substances in normal conditions of use.			
<b>10.2. Chemical stability.</b>			
The product is stable in normal conditions of use and storage.			
<b>10.3. Possibility of hazardous reactions.</b>			
No hazardous reactions are foreseeable in normal conditions of use and storage.			
<b>10.4. Conditions to avoid.</b>			
None in particular. However the usual precautions used for chemical products should be respected.			
<b>10.5. Incompatible materials.</b>			
Information not available.			
<b>10.6. Hazardous decomposition products.</b>			
Information not available.			
<b>SECTION 11. Toxicological information.</b>			
According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good industrial practices.			
<b>11.1. Information on toxicological effects.</b>			
<u>ACUTE TOXICITY.</u>			
LC50 (Inhalation - vapours) of the mixture:	Not classified (no significant component).		
LC50 (Inhalation - mists / powders) of the mixture:	Not classified (no significant component).		
LD50 (Oral) of the mixture:	Not classified (no significant component).		
LD50 (Dermal) of the mixture:	Not classified (no significant component).		
<u>SKIN CORROSION / IRRITATION.</u>			
Does not meet the classification criteria for this hazard class.			
<u>SERIOUS EYE DAMAGE / IRRITATION.</u>			
Does not meet the classification criteria for this hazard class.			
<u>RESPIRATORY OR SKIN SENSITISATION.</u>			
Does not meet the classification criteria for this hazard class.			
<u>GERM CELL MUTAGENICITY.</u>			

<b>INDUSTRIA MAIMERI S.P.A.</b> <b>MAIMERI GOUACHE                      20391 Ultramarine Light</b>	Revision nr.2 Dated 15/02/2017 Printed on 15/02/2017 Page n. 5 / 7 EN
<b>SECTION 11. Toxicological information.    ... / &gt;&gt;</b>	
<p>Does not meet the classification criteria for this hazard class.</p> <p><u>CARCINOGENICITY.</u> Does not meet the classification criteria for this hazard class.</p> <p><u>REPRODUCTIVE TOXICITY.</u> Does not meet the classification criteria for this hazard class.</p> <p><u>STOT - SINGLE EXPOSURE.</u> Does not meet the classification criteria for this hazard class.</p> <p><u>STOT - REPEATED EXPOSURE.</u> Does not meet the classification criteria for this hazard class.</p> <p><u>ASPIRATION HAZARD.</u> Does not meet the classification criteria for this hazard class.</p>	
<b>SECTION 12. Ecological information.</b>	
<p>Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.</p> <p><b>12.1. Toxicity.</b> Information not available.</p> <p><b>12.2. Persistence and degradability.</b> Information not available.</p> <p><b>12.3. Bioaccumulative potential.</b> Information not available.</p> <p><b>12.4. Mobility in soil.</b> Information not available.</p> <p><b>12.5. Results of PBT and vPvB assessment.</b>  On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.</p> <p><b>12.6. Other adverse effects.</b>  Information not available.</p>	
<b>SECTION 13. Disposal considerations.</b>	
<p><b>13.1. Waste treatment methods.</b> Reuse, when possible. Neat product residues should be considered special non-hazardous waste. Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations. <b>CONTAMINATED PACKAGING</b> Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.</p>	
<b>SECTION 14. Transport information.</b>	
<p>The product is not dangerous under current provisions of the Code of International Carriage of Dangerous Goods by Road (ADR) and by Rail (RID), of the International Maritime Dangerous Goods Code (IMDG), and of the International Air Transport Association (IATA) regulations.</p> <p><b>14.1. UN number.</b> Not applicable.</p> <p><b>14.2. UN proper shipping name.</b> Not applicable.</p>
