Duasyn acid blue AE-SF 30 liq.

 Section 4: First aid measures General: In all cases of doubt, or when symptoms persist, seek medical attention. Inhalation: NA Skin contact: Wash skin thoroughly only with soap and water or recognized skin cleanser. Eye contact: Rinse with plenty clean, fresh water for at least 10 minutes, holding the eyelids apart (ren eye lenses if possible) and seek medical advice. Ingestion: If accidentally swallowed (a lot) seek medical advice. Keep at rest. Do NOT induce vomitities in accidentally swallowed (a lot) seek medical advice. Keep at rest. Do NOT induce vomities Section 5: Firefighting measures Extinguishing media Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fires with water spray or alcoresistant foam. Special hazards arising from the substance or mixture: No further relevant information available. Advice for firefighters Protective equipment: No special measures required. Section 6: Accidental release measures Personal precautions, protective equipment and emergency procedures: Refer to protective measures linin sections 7 and 8. Environmental precautions: Remains clean with water and detergent, avoid use of solvents. Do not allo enter sewers/ surface or ground water. If do, inform authorities in accordance to local regulations. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diator acid binders, universal binders, sawdust). Place in container for disposal according to local regulations section 13. Reference to other sections No dangerous substances are released. See Section 7 for information on safe handling. See Section 7 for information on personal protection equipment. See Section 7 for information on personal protection equipment. See Section 7 for information. 	ove
 General: In all cases of doubt, or when symptoms persist, seek medical attention. inhalation: NA Skin contact: Wash skin thoroughly only with soap and water or recognized skin cleanser. Eye contact: Rinse with plenty clean, fresh water for at least 10 minutes, holding the eyelids apart (reneyelenses if possible) and seek medical advice. ingestion: If accidentally swallowed (a lot) seek medical advice. Keep at rest. Do NOT induce vomities Section 5: Firefighting measures Extinguishing media Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fires with water spray or alcoresistant foam. Special hazards arising from the substance or mixture: No further relevant information available. Advice for firefighters Protective equipment: No special measures Section 6: Accidental release measures Personal precautions, protective equipment and emergency procedures: Refer to protective measures li in sections 7 and 8. Environmental precautions: Remains clean with water and detergent, avoid use of solvents. Do not allo enter sewers/ surface or ground water. If do, inform authorities in accordance to local regulations. Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diator acid binders, universal binders, sawdust). Place in container for disposal according to local regulations section 13). Reference to other sections No dangerous substances are released. Section 7 for information on safe handling. Section 13 for disposal information. 	ove
 nhalation: NA Skin contact: Wash skin thoroughly only with soap and water or recognized skin cleanser. Eye contact: Rinse with plenty clean, fresh water for at least 10 minutes, holding the eyelids apart (ren eye lenses if possible) and seek medical advice. ngestion: If accidentally swallowed (a lot) seek medical advice. Keep at rest. Do NOT induce vomities Section 5: Firefighting measures Extinguishing media Suitable extinguishing agents: CO₂, powder or water spray. Fight larger fires with water spray or alcoresistant foam. Special hazards arising from the substance or mixture: No further relevant information available. Advice for firefighters Protective equipment: No special measures required. Section 6: Accidental release measures Personal precautions, protective equipment and emergency procedures: Refer to protective measures li in sections 7 and 8. Environmental precautions: Remains clean with water and detergent, avoid use of solvents. Do not allo enter sewers/ surface or ground water. Section 7: Handling and storage	
······································	
Handling:	
Precautions for safe handling: No special measures required. Ensure good ventilation/exhaustion at the	
workplace.	
Information about fire - and explosion protection: No special measures required.	
Conditions for safe storage, including any incompatibilities Storage: store between 5 and 30 °C in a dry place, away from other chemicals.	
Requirements to be met by storerooms and receptacles: No special requirements.	
Information about storage in one common storage facility: Not required.	
Further information about storage conditions: None.	
Specific end use(s) No further relevant information available.	
ection 8: Exposure controls / personal protection	
Additional information about design of technical facilities: No further data; see item 7. Control parameters	

UIUAPEN SAFETY DATA SHEET Revision date: March 23, 2021 Issue No 2/2015

• Ingredients with limit values that require monitoring at the workplace: The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

· Additional information: The lists valid during the making were used as basis.

Exposure controls

- · Personal protective equipment:
- General protective and hygienic measures: The usual precautionary measures are to be adhered to when handling chemicals.
- · Respiratory protection: Not required.
- Protection of hands: The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.
- Material of gloves: The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material cannot be calculated in advance and has therefore to be checked prior to the application.
- Penetration time of glove material: The exact breakthrough time has to be found out by the manufacturer of the protective gloves and has to be observed.
- Eye protection: Goggles recommended during refilling.

Section 9: Physical and chemical properties

Information on basic physical and chemical properties General Information

Appearance:

- Physical state: Liquid
- Form: Fluid
- Color: According to product specification
- · Odor: Product specific.
- \cdot Odor threshold: Not determined.
 - pH (at 20 °C): 2,2 8,4
 - Melting/Freezing point: 0 °C
 - Boiling point: 100 °C
 - Flash point: NA
 - Evaporation rate: NA
 - Vapor pressure at 20 °C: 23 hPa
 - Flammability limits in air, upper, % by volume: ND
 - Flammability limits in air, lower, % by volume: ND
 - Density: 1 g/cm³
 - Relative density: ND
 - Vapor density: ND
 - Evaporation rate: ND
 - Solubility (water): Fully miscible
 - Partition coefficient (n-octanol/water): ND
 - Auto-ignition temperature: Not self-igniting
 - Danger of explosion: Product does not present an explosion hazard.
 - Decomposition temperature: ND
 - VOC: None
 - Viscosity (Dynamic): >1 mPas
 - Percent volatile: NA
 - Organic solvents: 1,0 %
 - Water: 98 %

Item Numbers: 20883-1003, 20883-1009, 20883-1012, 20883-1019, 20883-1030, 20883-1112, 20883-1130, 20883-2009, 20883-2024

Sheege335f 5

UIUAPEN SAFETY DATA SHEET Revision

Revision date: March 23, 2021

Issue No 2/2015

NA – not applicable

ND – not determined

Section 10: Stability and reactivity

- · Reactivity
- · Chemical stability
- · Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- \cdot Possibility of hazardous reactions: No dangerous reactions known.
- \cdot Conditions to avoid: No further relevant information available.
- \cdot Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

Section 11: Toxicological information

Information on toxicological effects

Acute toxicity:

Primary irritant effect:

- On the skin: No irritant effect.
- On the eyes: No irritating effect.
- · Sensitization: No sensitizing effects known.
- · Additional toxicological information:

The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version.

When used and handled according to specifications, the product does not have any harmful effects to our experience and the information provided to us.

Section 12: Ecological information

Toxicity

- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability: No further relevant information available.
- · Behavior in environmental systems:
- · Bio accumulative potential: No further relevant information available.
- · Mobility in soil: No further relevant information available.
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

Section 13: Disposal considerations

Waste treatment methods

- · Recommendation Smaller quantities can be disposed of with household waste.
- · European waste catalogue
- Uncleaned packaging:
- \cdot Recommendation: Disposal must be made according to official local and national regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.
