Creativity. Our Legacy.™

Koh-I-Noor Black Inks

SAFETY DATA SHEET (SDS)

Version: 02

Date of Issue: December 26, 2019

According to: US Hazard Communication Standard (HCS 2012), WHMIS 2015 (Hazardous Products Regulations)

Section 1 - Identification

1.1 Product identifier

Product Name: Koh-I-Noor Black Inks- 9150, 3071, 3084, 3085, 3091, 6101

Product Description: liquid ink intended for general arts and crafts purposes. The product is intended to be

applied using a brush, dip pen, or airbrush.

1.2 Relevant identified uses of the substance

Relevant identified use(s): Use for general arts and crafts purposes

1.3 Details of the supplier of the safety data sheet

Manufacturer/Supplier: Chartpak, Inc.

1 River Road Leeds, MA, 01053 United States

Business Phone: 800-682-1910

1.4 Emergency telephone number

Emergency Telephone: 800-682-1910

Section 2 – Hazard(s) Identification

2.1. Classification of the substance or mixture

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

Health	Environmental	Physical
Not classified	Not classified	Not classified

2.2. Label elements

Label Pictogram: Not applicable **Signal Word:** Not applicable

2.3. Other hazards

 This product is not considered a hazardous mixture under the U.S. Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200) or WHMIS 2015 (Hazardous Products Regulations).

Page 1 of 9

Item Numbers: 21132-1034 Page 1 of 9

Section 3 - Composition / Information on Ingredients

Hazardous Components

Chemical Name	CAS No.	EINECS No.	% Weight
Solvent naptha (petroleum), light arom.	64742-95-6	265-199-0	0% - 3.33%
Carbon black	1333-86-4	215-609-9	0% - 3.7%
Anionic/non-ionic surfactant blend	N/A	N/A	0% - 1.06%
Titanium dioxide	13463-67-7	236-675-5	0% - 3.836%

The exact percentage (concentration) of composition of the product has been withheld as trade secrets

Section 4 - First-Aid Measures

4.1 Description of first aid measures

Eye contact: No specific first aid measures are required. As a precaution, remove contact lenses, if worn, and flush eyes with water. Seek medical attention if in doubt.

Skin contact: No specific first aid measures are required. Seek medical attention if in doubt.

Inhalation: No specific first aid measures are required. If exposed to excessive levels of material in the air, move the exposed person to fresh air. Seek medical attention if in doubt.

Ingestion: No specific first aid measures are required. Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Seek medical attention if in doubt.

4.2 Most important symptoms and effects, both acute and delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed

· Not required

Section 5 – Fire-Fighting Measures

5.1 Extinguishing media

Suitable Extinguishing Media: Use extinguishing media suitable for surrounding area if material is involved in a fire (e.g., water fog, foam, dry chemical or carbon dioxide).

Unsuitable Extinguishing Media: None known.

5.2 Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards: None known. See also Section 10 - Stability and Reactivity.

5.3 Advice for firefighters

Not available

Page 2 of 9

Item Numbers: 21132-1034 Page 2 of 9

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment (PPE) and emergency procedures

Personal Precautions: Observe PPE advice in Section 8 – Exposure Controls/Personal Protection.

Emergency Procedures: Wear suitable protective clothing and gloves.

6.2 Environmental precautions:

Prevent entry and contact with soil, drains, sewers, and waterways. Inform relevant local/regional/national/international authorities.

6.3 Methods and material for containment and cleaning up

Containment/Clean-up Measures: Contain spill if safe to do so. Collect recoverable product and place in a designated container for disposal. Dispose of contents/container in accordance with local/regional/national/international regulations.

6.4 Reference to other sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7- Handling and Storage

7.1 Precautions for safe handling

• Eating, drinking and smoking in work areas is prohibited. Wash hands after use. Remove contaminated clothing and protective equipment before entering eating areas. Use normal measures for prevention of fire. Refer to **Section 8** - Exposure Controls/Personal Protection.

7.2 Conditions for safe storage, including any incompatibilities storage

Store in a closed suitable container in a cool, dry, well-ventilated area.

7.3 Specific end use(s)

· Refer to Section 1.2 - Relevant identified uses.

Section 8– Exposure Controls / Personal Protection

8.1 Control Parameters:

Carbon black	1333-86-4	0% - 3.7%	US OSHA	3.5 mg/m³ TWA
(as particulates)			US ACGIH	3 mg/m³ TWA (inhalable fraction)
Titanium dioxide	13463-67-7	0% - 3.836%	ACGIH	10 mg/m3 TWA
(as particulates)	10400-07-1	070 - 3.03070	US NIOSH	15 mg/m3 TWA (total dust)

8.2 Exposure Controls:

Appropriate engineering controls

Use ventilation or other engineering controls to maintain airborne concentrations below occupational
exposure limits.

8.3 Personal Protective Equipment

Note: Consider the concentration and amount of product at the workplace when selecting PPE.

Respiratory: Avoid conditions that would create fine mists. If necessary, refer to appropriate regulatory standards.

Page 3 of 9

Item Numbers: 21132-1034 Page 3 of 9

Eyes/Face: No special eye protection is generally required. Wear safety glasses with side shields, chemical goggles, or complete facial protection if operating conditions create mists that are not adequately controlled. If necessary, refer to appropriate regulatory standards.

Hands/Skin: No special hand or skin protection is generally required. Consider the concentration and amount of material at the specific workplace. Wear protective clothing if engineering controls or work practices are not adequate to prevent significant skin contact. Protective measures may include general protective gloves (e.g., light weight rubber gloves). If necessary, refer to appropriate regulatory standards.

Body: No specific clothing is required. If necessary, refer to appropriate regulatory standards.

Thermal Hazards: None known.

Environmental Exposure Controls: Not available.

Section 9 – Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Note: The data below are typical values and do not constitute a specification.

Appearance:		Partition Coefficient	
Physical state: Color: Odor/Odor threshold:	Liquid Various Not available	n-octanol/water: Auto-ignition temperature:	Not available Not applicable
pH (as supplied):	Not available	Decomposition temperature:	Not available
Melting/freezing point:	Not available	Viscosity:	Not applicable
Boiling point/range:	Not available	Molecular weight:	Not available
Flash point:	Not applicable	Taste:	Not available
Evaporation rate:	Not available	Explosive properties:	Not available
Flammability:	Not applicable	Oxidizing properties:	Not available
Upper/lower explosive limits:	Not applicable	Surface tension:	Not applicable
Vapor pressure:	Not available	Volatile component:	Not applicable
Water solubility:	Insoluble	Gas group:	Not applicable
Vapor density (Air = 1):	Not available	pH (as solution):	Not applicable
Specific gravity (Water = 1):	Not available	VOC:	Not applicable
Relative density:	Not available	Particle size range:	Not available

9.2 Other information

No further data available.

Section 10 – Stability and Reactivity

10.1 Reactivity

• This material is considered stable under normal handling and storage conditions.

10.2 Chemical stability

· This material is considered stable under normal handling and storage conditions.

10.3 Possibility of hazardous reactions

· Hazardous polymerization will not occur.

Page 4 of 9

Item Numbers: 21132-1034 Page 4 of 9

10.4 Conditions to avoid

Heat, flames, sparks, ignition sources.

10.5 Incompatible materials

Strong oxidizing agents.

10.6 Hazardous decomposition products

None known.

Section 11 – Toxicological Information

Likely routes of exposure: Skin contact, inhalation of droplets.

Potential signs and symptoms of:

Acute oral toxicity: Practically non-toxic based on available data.

Acute dermal toxicity: Practically non-toxic based on animal studies and available data.

Acute inhalation toxicity: Insufficient and/or no data identified for the components in this product.

Skin corrosion/irritation: The components in this product are not irritating to the skin based on animal

studies and available data.

Serious eye damage/irritation: Anionic/non-ionic surfactant blend may cause eye irritation, pain, reddening,

swelling, and/or stinging. The other components in this product are not

sensitizing to the skin based on human and/or animal studies.

Respiratory or skin sensitization: Anionic/non-ionic surfactant blend may cause an allergic skin reaction.

Symptoms of exposure include rash and pain. The other components in this product are not sensitizing to the skin based on human and/or animal studies.

Mutagenicity: No components are classified with respect to mutagenicity by the IARC, NTP,

and ACGIH.

Carcinogenicity: Carbon black (CAS No. 1333-86-4) and titanium dioxide (CAS No. 13463-67-7)

particulates are classified as possibly carcinogenic to humans (Category 2); No other components are classified with respect to carcinogenicity by the IARC,

NTP, and ACGIH.

Reproductive Toxicity: No components are classified with respect to carcinogenicity by the IARC, NTP,

and ACGIH.

Specific target organ toxicity

(single exposure):

Solvent naptha (petroleum), light aroma. (CAS No. 64742-95-6 may cause drowsiness and dizziness. The other components in this product are not specific target organ toxicants (single exposure) based on the available information,

human and/or animal studies.

Specific target organ toxicity

(repeated exposure):

Repeated or prolonged inhalation of carbon black (CAS No. 1333-86-4) or titanium dioxide (CAS No. 13463-67-7) particulates may damage or impair the respiratory and pulmonary systems; however, inhalation of carbon black or titanium dioxide as particulates is not anticipated given the physical form of the product. Insufficient and/or no data identified for the other components in this

product.

Aspiration hazard: The components in this product are not aspiration hazards based on the

available information, human and/or animal studies.

Item Numbers: 21132-1034 Page 5 of 9

Section 12 – Ecological Information

12.1 Toxicity

 This product is not expected to be harmful or toxic to aquatic life. See ecotoxicity data for the hazardous components below.

Chemical Name	CAS No.	Species	Test Results (mg/L)
		Fish [fathead minnow]	96-hour LC50 = 42
Carbon Black	1333-86-4	Daphnia magna	48-hour EC50 = 91
		Algae [Selenastrum capricornutum]	72-hour EC50 = 82
A		Fish [fathead minnow]	96-hour LC50 = 2.24
Anionic/non-ionic surfactant blend	N/A	Daphnia magna	48-hour EC50 = 13.2
Surfactant Biona		Algae [Selenastrum capricornutum]	72-hour EC50 = 50
	13463-67-7	Fish [Pimephales promelas]	96-hour LC50 = >1000
Titanium dioxide		Algae [Pseudokirchneriella subcapitata]	48-hour EC50 = >100
		Daphnia magna	72-hour EC50 = >1000

12.2 Persistence and degradability

- Carbon black (CAS No. 1333-86-4) is expected to be biodegradable.
- Anionic/non-ionic surfactant blend is expected to be biodegradable.
- Titanium dioxide (CAS No. 13463-67-7) is expected to be practically not biodegradable.

12.3 Bioaccumulative potential

Titanium dioxide (CAS No. 13463-67-7) does not bioaccumulate.

12.4 Mobility in Soil

No data available.

12.5 Results of PBT and vPvB assessment

Solvent naptha (petroleum), light arom. (CAS No. 64742-95-6) is not considered to be PBT or vPvB.

12.6 Other adverse effects

No further data available.

Section 13 - Disposal Considerations

13.1 Waste treatment methods

Preparing wastes for disposal: Use product for its intended purpose or recycle if possible. Do not allow this material to drain into sewers/water supplies. Dispose of waste in accordance with local, regional, national, and/or international regulations.

Section 14 – Transport Information

Note: This product is not regulated as dangerous goods for transport.

	ADR/RID/ADNR/DOT	IMO/IMDG	ICAO/IATA
14.1 UN number	Not classified	Not classified	Not classified
14.2 UN proper shipping name	Not classified	Not classified	Not classified

Item Numbers: 21132-1034 Page 6 of 9

14.3 Transport hazard class(es):	Not classified	Not classified	Not classified
14.4 Packing group	Not classified	Not classified	Not classified
14.5 Environmental hazards	None	None	None
14.6 Special precautions for user	None	None	None
14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code	Not applicable	Not applicable	Not applicable

Section 15 – Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

United States

Federal Regulations:

Comprehensive Environmental Response and Liability Act of 1980 (CERCLA):

No components in this product are listed under CERCLA.

Clean Water Act (CWA): No components in this product are listed as toxic pollutants.

Clean Air Act (CAA): No components in this product are listed under the CAA.

Superfund Amendments and Reauthorization Act (SARA) Title III Information:

SARA 302 Components: No components in this product are subject to reporting requirements of S.302.

SARA 311/312 Hazards: No components in this product are SARA Hazards.

SARA 313 Components: No components in this product are subject to S.313.

Toxic Substances Control Act (TSCA):

All components in this product are listed on the non-confidential TSCA inventory.

State Regulations:

California: Carbon black (airborne, unbound particles of respirable size) (CAS No. 1333-86-4) and titanium dioxide (airborne, unbound particles of respirable size) are listed under Proposition 65 (CA Health & Safety Code Section 25249.5). No other components in this product are listed.

Canada

CEPA DSL/NDSL: The components of this product are included on the DSL or are exempt from DSL/NDSL requirements.

International:

IARC: Carbon black (CAS No. 1333-86-4) particulate is classified as possibly carcinogenic to humans (Category 2B). Titanium dioxide (CAS No. 13463-67-7) is classified as possibly carcinogenic to humans (Category 2B). No other components in this product are classified with respect to carcinogenicity.

15.2 Chemical Safety Assessment

None available.
